CCES is pleased to announce a fully-funded scholarship competition to attract new, talented students in rising grades five through eight with substantial financial need. An ideal candidate is an accomplished student who is keenly ambitious, intellectually curious, hard-working, and self-disciplined. He or she must embody high integrity. He or she might be a talented musician or an aspiring leader who seeks a challenging academic experience. The scholarship candidate will be educated by rigorous but nurturing teachers who care deeply about their students and are committed to fostering a successful transition into the CCES community. In addition, the candidate will benefit from a consummate college counseling team and a community whose foundation rests on faith in God.
Once a student is awarded a Cavalier Scholarship, he or she will retain that scholarship through graduation, contingent on acceptable academic progress.

Faculty and school administrators will work with each scholarship recipient to facilitate the transition to CCES.

Cavalier Scholars will receive individual course planning with the Middle and/or Upper School Assistant Directors and other appropriate administrators, including college counselors. The Upper School program of study includes a wide array of AP classes and an IB Diploma curriculum.

These students will work closely with their division directors, their advisors, Chaplains, and the Director of Service Learning to ensure a smooth transition into the CCES community.

Supplies and equipment necessary for successful matriculation may be funded by the Cavalier Scholarship.

Interested students should fill out the Admission Application, available online and through the Admission Office. There is no admission fee required to apply. Please submit completed applications to the Admission Office and note that you are interested in the Cavalier Scholarship. Applications are due by December 1st.

Families should submit financial information to the Business Office via the SSS (School and Student Services) website, http://sss.nais.org.

All applicants will be invited to sit for a competitive examination created by our faculty. This examination focuses on math, reading comprehension, general knowledge, and requires responses to two essay prompts.

Based on the application and the results of the competitive exam, each finalist will be invited to sit for an interview with the Cavalier Scholarship Committee.

The Cavalier Scholar will be notified in writing if he or she is selected.
